Dear ADEE members, colleagues and friends,  
Welcome to ADEE 2022

While our 2021 experience may not be what we were used to, we were delighted to be able to provide members with an opportunity and share our experiences and research online.

This year we are pleased to be back to a full face to face meeting environment in the beautiful and historic city of **Palma de Mallorca - Islas Baleares, Spain**. Together with our hosts at ADEMA Dental School we look forward to providing you with opportunity to Reconnect, Rethink, Refresh, Rebuild and Reward. With a range of workshops, keynote speakers, our ADEE Freestages, Tech Talks and exhibition sessions we are confident there will be something for everyone.

**Prof Dr Pål Barkvoll**  
ADEE President 2021-2022

Prof Dr Pål Barkvoll is an experienced administrator and professor of Oral Surgery and Oral Medicine with a demonstrated history of working in the higher education industry. A former Dean and Head of Dental Services he is skilled in Clinical Research, Medical Education, Life Sciences, Epidemiology, and Medical Devices. He has a strong education professional background. Pål has also holds qualifications in Military and Strategic Leadership from The Norwegian Military Academy.

As this is our first time to meet face-to-face since Berlin in 2019 we are also ensuring there will be ample time to network, meet with exhibitors and colleagues and of course have some down time while in Palma. We are most appreciative of the ongoing support of our corporate partners without whom all of this would not be possible. We encourage you to spend time and actively engage with our corporate colleagues throughout the event.

My executive colleagues and I very much look forward to meeting you in person and having an opportunity to reconnect with many of you and indeed may new connections with some.

I wish you an enjoyable and productive meeting and as always, we welcome your contact and feedback.

**Pål**

Dear friends,

On behalf of the staff of the University School ADEMA, a centre attached to the UIB, I would like to welcome all the members of the Association for Dental Education in Europe (ADEE) who will participate in Palma in the annual Congress of the entity.

**Prof Diego González**

ADEMA

I would like to thank all the participating Universities for continuing their commitment to work on the promotion, research, knowledge, innovation, and development of dental education within the framework of the ADEE Annual Congress. The quality of teaching, research and care activities is based on the talent of the team of people who work every day and who can choose and opt for competitive and relevant projects in the European context.

I would also like to take this opportunity to thank the ADEE for having chosen Palma as the venue, as our city meets all expectations and will leave you with unforgettable moments in this Mediterranean of ours. It is a city known worldwide for its beauty, its culture and its hospitality that welcomes all its visitors with open arms.

I do not want to say goodbye without thanking the involvement and collaboration of the human team of the University School ADEMA, the rectorate of the University of the Balearic Islands (UIB), and the highest authorities in the organization of this Congress for their guests to work and collaborate on the latest trends in the sector, the quality of teaching, research, and professional development in the field of oral health. We hope that this conference will be of benefit to all and that it will become a true pathway for science and society after times of uncertainty due to the pandemic. Let us work together for a promising future. From the bottom of our hearts, congratulations, thank you. We are waiting for you with open arms.

We are honored and express our gratitude to her majesty the Spanish Queen Sofia Margarida Vitória Frederica for officially accepting to be the President of Honor of the ADEE Annual Meeting 2022 in Palma de Mallorca, Islas Baleares, Spain.

## Invited Speakers

**Prof Marianne Mak -  
Van der Vossen**

### **Learning from lapses: How to identify, classify and respond to lapses in professionalism**

Wednesday, 26<sup>th</sup> August 2022 - 17:30 to 20:30

Prof Marianne Mak - Van der Vossen, MD PhD is a medical educator and medical education scientist at the Academic Center for Dentistry Amsterdam (ACTA) and at the postgraduate residency program for general practitioners at Amsterdam UMC, The Netherlands. After having worked as a general practitioner for 15 years, Marianne turned to education, and gained ample experience as a medical educator in undergraduate medical education at the VUmc medical school in Amsterdam. She established a longitudinal educational theme "Professional Behavior" at this school, and coordinated teaching and assessment of this theme up to Sept 2020. While in this position, she conducted PhD research, culminating in the thesis "Learning from lapses: How to identify, classify and respond to unprofessional behavior in medical students".

In 2020, Marianne joined ACTA to co-create a longitudinal educational line "Professional Development" across the dentistry curriculum. In 2021, she was appointed program leader of medical education research at the Department of General Practice of Amsterdam UMC.

**Prof Yolanda  
González Cid**

### **Artificial Intelligence, present and future of smart dentistry**

Wednesday, 24<sup>th</sup> August 2022 - 17:30 to 20:00

Prof Yolanda González Cid holds a degree in Computer Science from the Univ. of Deusto and PhD in Industrial Engineering from the National Distance Education University (UNED). After receiving an FPI scholarship (1993-1996) and occupying various teaching positions at both the UNED (1996-2000) and the University of the Balearic Islands (UIB) (2000-2010), she is currently Associate Professor of Computer Architecture and Technology in the Department of Mathematics and Informatics (DMI) at the UIB, since January 2010.

Upon joining the UNED in 1993, she began her research stage focused on computer vision and its applications in robotics. In 2000 she joined the UIB, working since then in education and research at this University. Since 2000, she has been part of the Systems, Robotics and Vision research group (srv.uib.es) at the UIB. Within this group she has developed her research work in the field of mobile and underwater

robotics, been focused on the use of ultrasound sensors for the autonomous navigation of land and underwater robots, as well as the location of the robot and the construction of maps. Since 2016, she has focused her research on the field of deep learning, applied to image and data processing.

In 2004 she was awarded a grant financed by the European Social Fund for Researcher Training of the UIB through stays in research centres. During the duration of the fellowship, she stayed 4 months at the Active Vision Group at the University of Oxford. In June 2017 she attended the Deep Learning and Reinforcement Learning Summer School at the University of Montreal. Less than 20% of the requests for assistance submitted were accepted.

She has participated and leaded various projects financed by different national and international organizations.

For years, she has actively participated in scientific dissemination and outreach activities related to her lines of research: 'Ciencia per a Tothom' at the UIB, Estalmat program (Stimulation of Mathematical Talent) of the Balearic Islands, MENTORiment-UIB, speaker at Saturdays.AI, round tables and interviews and reports in the press and audiovisual media.

Finally, in terms of academic management positions, she was the academic secretary of the PAAU at the UNED from January to October 2000, the dean of the School of Engineering at the UIB (2011-2015), Director of Research Promotion at the UIB (2015-2021). She is currently the Vice-rector of management of undergraduate degrees at the UIB.

**Prof Mariano Sans**

### **Teaching and learning Implant Dentistry: The interphase between undergraduate and postgraduate education?**

Friday, 26th August 2022 - 14:00 to 15:30

Prof Mariano Sanz is Professor and Chair of Department of Dental Clinical Specialities (DECO), Director of ETEP (Etiology and Therapy of Periodontal and Periimplant Diseases) Research Group at the Faculty of Odontology in the University Complutense of Madrid, Spain. Prof Sanz is Specialist in Stomatology (Universidad Complutense de Madrid (DDS)), Specialist in Periodontology (University of California, Los Angeles (UCLA)) and Doctor en Medicine (PhD degree, Universidad Complutense de Madrid (DrMed)).

He is a respected clinician and educator in the area of periodontology and implantology for many years having published more than 350 scientific articles and book chapters in Periodontology, Implant

Dentistry and Dental Education. Prof Sanz has also held senior leadership roles with both ADEE (Sec General & President) and the European Federation of Periodontology (EFP) (Secretary General) and has received Honorary Doctorate Degrees from the Universities of San Sebastian (Chile), Goteborg (Sweden), Coimbra (Portugal), Buenos Aires (Argentina) and Warsaw (Poland).

the European Federation of Periodontology (EFP) (Secretary General) and has received Honorary Doctorate Degrees from the Universities of San Sebastian (Chile), Goteborg (Sweden), Coimbra (Portugal), Buenos Aires (Argentina) and Warsaw (Poland).
